You can read more about the project at [www.afreshbouquet.com](http://www.afreshbouquet.com).

Book Debra for your upcoming keynote, lecture or hand-on workshop. Her lecture packages are tailored to regional and seasonal floral themes. Gain value for your educational budget with two-part workshops that build on one another, including (1) an illustrated lecture + floral design demonstration; (2) an illustrated lecture + guided flower farm tour; or (3) an all-day eco-floral design intensive. Her presentations are a perfect complement to any **Sustainable Gardening** or **Slow Food Culinary** event.

During each month of the year, the garden has something wonderful to offer those who want to enjoy cut floral arrangements indoors. Expand the way you view your own backyard, the flowers sold by vendors at your local farmer's market and even the "weeds" in wild places. You will discover inspiring new ways to grow, glean, harvest and gather floral design ingredients – in every season.

## LECTURE TITLES INCLUDE:

- **A Year in Flowers:** *Growing and harvesting your cutting garden*
- **Green Flowers, in every color:** *Eco-friendly floral design techniques*
- **Slow Flowers:** *Follow your blooms from the flower farm to the vase on your dining table*

"Debra Prinzing wowed our audience with her ideas and passion for local and sustainable floral ingredients, her unique take on what makes a great arrangement and her hands on approach to demonstrating this art form. Debra's passion was infectious and I look forward to coming up with a new reason to have them back to our venue!" -- *Sarah Olson, Denver Botanic Gardens, Adult Education Manager*
